I did not mail, I submitted via the web portal. May be, it went to a wrong category?

I emailed you the document on the same day, don't you remember?

I am going to forward you the email with the receipt again - please open my next email.

You last office action was MAILED on October 31, 2007.
You have 3 months to reply properly and you can pay extension fees up to 6 months.
On May 1, 2008 the application is technically abandoned unless your response is correct and has not been entered.
You failed to reply properly on December 28, 2007 and April 3, 2008.
It is possible your application has gone abandoned.
I will ask if the clerks see a compliant response.

Todd,

I came back from travelling and the only letter I received is the one that stated that "the amdts. have not been properly signed/ Slashes are needed ouside the name on both sides."

The letter is dated 04/03/2008
I resubmitted with proper slashed at least one time. I think, actually twice.
I remember you telling me that the whole thing could be completed in two three months in December.

It looks like something is going wrong.

Could you be so kind as to check what is the current status of this case?

Thanks so much

Make sure you update your contact information with the Patent Office, if it has changed.
I do not have access to enter that information.

Todd,

Hope you are doing fine.

I am working on a sort term (2-month) project in Japan right now.

My residence in Hawaii is empty and nobody is receiving the incoming mail, it is on hold.

I do not know if there is any correspondence related to the patent in my mailbox.

I left my home at Hawaii on April 2nd.

I also sure appreciate your help and correcting all my pitfalls during paper submissions.

I can not send letters right now, but I sure will when I am back, which is planned for the beginning of June.

6/16/2008

Thank you so much,

Best Regards,

Igor Voln

Make sure you prove your response with a receipt because they will be charging you fees if they don't have a record

I did respond immediately. Did you send another request?

I could do another electronic submission.

What is the document that needs to be resubmitted?

Is it the one that is attached? I believe, I submitted it on 12/28/2007

The record does not indicate a response filed.

To avoid abandonment you will need to file a response.

If you did file a response you will need to file it again with a receipt proving you filed your response.

Thanks You

Oh, my goodness! They are real tough.

Ok, I went through the documents you sent or faxed me as examples, and none has a signature example unfortunately (I can email them back so that you see for yourself)

Anyway, I am attaching the digitally re-signed document. Is it what you meant?

We will have to see if your submission got accepted or not.
Examiners can not receive and enter Applicant's responses to Office actions.
For Pro Se I can look at them for glaring errors. As we did.

I submitted a request to see if your submission was entered and is not showing in the system yet.
